

HELLO VMD

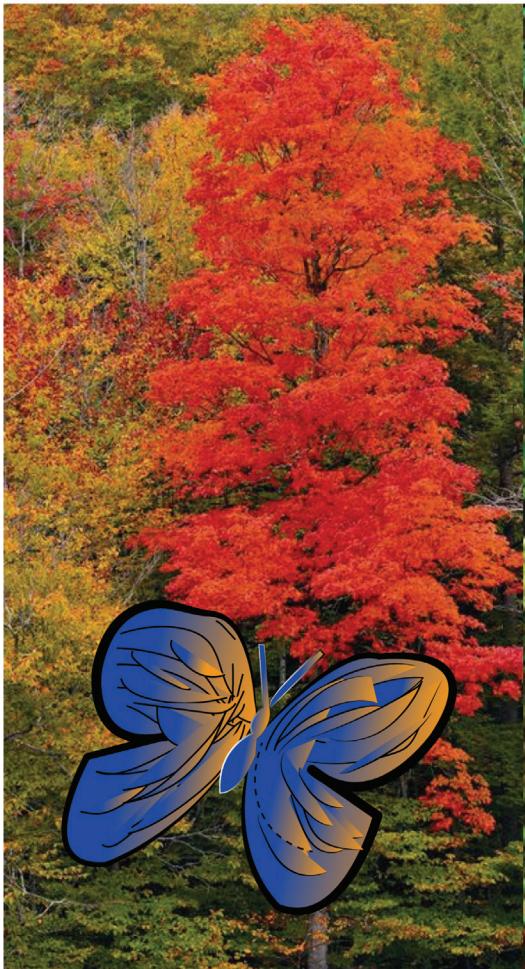

My name is Zebib. I always believe that "I am capable of anything if I put my mind to." I am interested in graphic design & decided to take this class from the scratch.

I love Paris and fall. I decided to use the pictures that I took in Paris in the fall & add my picture too. I learn how to work with multiple layers.

"Starting somewhere now is always better than starting later"  
Becky Simpson

## ADOBE PHOTOSHOP RASTER FINAL 😊

I impressed a lot drawing with illustrator.  
I like butterfly & sometimes i wish i can be a  
butterfly too. I was excited when i drew butter-  
fly for my final project. Theres a lot that i have  
to improve tho.

## ADOBE ILLUSTRATOR FINAL 🤔👀

It was a challenge for me working with Adobe Animate. I used my raster and illustrator final project for my animate final. My plan was to make my butterfly moves around in the fall season. I wanted the sun from rise to set .Somehow i wasn't successful and decided to give much time for animate.

# ADOBE ANIMATE FINAL
